DETAILED ACTION

Specification

The specification, as originally filed, does not include Fig. 1, and the headings of "Brief description of the drawing", and "Detailed description of the drawings".

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 12-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 12, line 4, "overneutralized" is indefinite and confusing term, because it is known in the art that the solution either acidic, or basic, or neutral. It is not clear what "overneutralized" means. The term "electro-dipcoating lacquer binder is overneutralized with neutralizing agent corresponding to a degree of neutralization of the binder of at least 100 to 1000%" is confusing and indefinite term.

In claims 17, 21, line 5, "the resin" lacks antecedent basis.

In claim 20, line 2, "anodic dipcoating lacquer" lacks antecedent basis.

In claim 24, line 2, "the cathodic dipcoating lacquer" lacks antecedent basis.

Claim 29 is incomplete because steps for cleaning have not been cited.

In claim 30, lines 3-4, "the same components" lacks antecedent basis.

3. Claim 29 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: the step of cleaning.
